Setup Guide

Easy

20 minutes

## Tandem Beam

---

### Quick Facts

---

<b>Click ID:</b>	Auto-captured from Pinterest referrals
<b>Authentication:</b>	Access Token + Ad Account ID
<b>Test Mode:</b>	Test mode available
<b>Events Supported:</b>	checkout, add_to_cart, page_visit, signup, lead, view_category, search, watch_video

### Prerequisites

---

- Pinterest Business account
- Pinterest Tag installed
- Admin access to Pinterest Ads

### Setup Steps

---

#### 1 Access Pinterest Ads Manager

Log in to Pinterest Business (business.pinterest.com) > Go to Ads > Conversions

#### 2 Find Your Ad Account ID

Your Ad Account ID is visible in Ads Manager settings or URL. Format: numeric string.

#### 3 Generate API Access Token

Go to Pinterest Developer Portal > Create an app > Generate access token with ads:read and ads:write scopes

#### 4 Configure in Tandem Beam

1. Return to Platform Configurations
2. Click Add New Configuration
3. Select Pinterest
4. Enter your Ad Account ID
5. Paste your Access Token
6. Click Save Configuration

### Configuration Fields Reference

---

Field Name	Format	Required
------------	--------	----------

<b>Ad Account ID</b>	Numeric string	<b>Required</b>
<b>Access Token</b>	Pinterest API access token	<b>Required</b>

**Security Note:** Keep all API tokens, secrets, and credentials secure. Never share them publicly or commit them to version control. If credentials are compromised, regenerate them immediately in the respective platform's settings.
